

MALLELLI DURGA MANOHAR

Hyderabad, India

+91 8328291394 — durgamanohat@gmail.com

DurgaManohar-15 — Durga Manohar Mallelli

PROFESSIONAL SUMMARY

Computer Science Engineering student with strong foundations in Core Java, OOPs, Collections Framework, Exception Handling, Multithreading, JDBC, REST APIs, and Data Structures. Experienced in developing scalable applications and database-driven systems using Java, MySQL, Git, and Spring Boot concepts. Skilled in problem-solving, debugging, version control, and writing clean, maintainable code. Passionate about software engineering and backend application development.

TECHNICAL SKILLS

Programming Languages	Java (Primary), Python (Intermediate), C++ (Basics)
Core Java	OOPs, Collections Framework, Exception Handling, Multithreading, File Handling, JDBC
Backend Development	REST APIs, CRUD Operations, Backend Services, Microservices Basics
Frameworks & Tools	Spring Boot Concepts, Git, GitHub, VS Code
Databases	MySQL
Web Technologies	HTML, CSS, JavaScript
Concepts	Data Structures and Algorithms, Problem Solving, Debugging, Version Control

EDUCATION

Bachelor of Technology in Computer Science Engineering	2023 – 2027
Malla Reddy University, Hyderabad	CGPA: 8.81
Intermediate Education (Class XII)	2021 – 2023
Krishnaveni Junior College, Khammam	97.4%

PROJECTS

Library Management System	<i>Java, JDBC, MySQL</i>
- Developed a Library Management System using Java and MySQL for efficient book and user management. - Implemented CRUD operations, login authentication, issue/return tracking, and fine calculation features. - Integrated JDBC for secure database connectivity and optimized SQL queries for structured data handling. - Applied OOP principles, exception handling, modular programming, and clean coding practices.	
SEASON GUARD – Disease Awareness Platform	<i>Java, MySQL</i>
- Built a web application providing seasonal disease awareness and preventive healthcare information. - Integrated MySQL for structured data management and designed responsive user interfaces. - Worked on CRUD operations and scalable application workflows.	
STAY SYNC – Hostel and PG Finder Platform	<i>Java, REST APIs, MySQL</i>
- Developed a hostel and PG booking platform with database connectivity and REST API integration. - Built student and admin dashboards for managing listings and booking operations. - Optimized database operations and contributed to scalable application workflows.	

CERTIFICATIONS

- Java Full Stack Internship Credential – EduSkills Academy
- Programming Using Java – Infosys Springboard
- Data Structures and Algorithms Using Java – Infosys Springboard
- CS50's Introduction to SQL
- CodSoft Internship – Web Development Intern

ACHIEVEMENTS

- Built multiple Java projects involving REST APIs, database connectivity, and CRUD functionalities.
- Strong understanding of software engineering principles, debugging techniques, and clean coding practices.
